

Technology

Green Tiger Express is expanding and has invested in the latest vehicle delivery IT technology and its Electronic Proof Of Delivery (POD) services. Customers can now register and book collections and deliveries online . Our new Electronic Proof of Delivery is now available through our new ’Advantage’ operational system in conjunction with a driver handheld system .In addition to the electronic POD capture functionality, the new system will store and provide real time delivery and collection information which is viewable online via our dedicated website to our customers instantly.

Benefits for our Customers

- Real-Time information: Customers will be able to go online to book jobs and using our searchable POD website to get real time PODS with accurate delivery information

- On-Time Delivery: The system will improve our dispatch accuracy and maximize our on-time delivery efficiency

- Faster POD turnaround: Customers will benefit from real time POD information when required

- Detailed Information Capture: Our handheld systems can capture Electronic signatures, damage information, condition and checklists of all vehicles delivered and more.

These changes are aligned with Green Tiger Express ‘Operational Excellence’ commitment to continuously strive to improve our processes, to raise our standards and to exceed our customers’ expectations.
